SKILLS

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python (Basic – able to identify, debug, and fix errors)
- **Web Technologies:** HTML, CSS, JavaScript (Basic)
- **Databases:** MySQL (Basic querying), MongoDB
- **Version Control system:** Git and GitHub (Basic-able to solve issues)

SOFT SKILLS

- Time Management
- Team Coordination

PROJECTS

- **Food Ordering System Using Java:** Developed a desktop-based food ordering system simulating real-world platforms like Zomato or Swiggy. The application enables users to browse menus, place orders, and track delivery status, while providing administrators with tools to manage inventory, assign delivery personnel, and generate sales reports**.**
- **Basic Login Page using Html, TailwindCSS**: Designed and implemented a responsive login interface using semantic HTML and Tailwind CSS utility classes. The layout features clean form elements, intuitive spacing, and mobile-first responsiveness to ensure optimal user experience across devices.
